## B) Commitments and Actions for the Coming Year

1. **Creating Healthy Pollinator Habitat:** Describe your plans to create, improve and maintain pollinator habitat. (add or remove lines as needed)

This year we have built an operating Honey Shack as an exhibit. We have a local bee keeper (Jerry Jerrard of Kawartha Lakes Honey) setting up an operating hive. It will serve as a learning tool about bees now, and historically. We hope to teach visitors about sustainability and the importance of pollinators. All the while, creating an ideal pollinator habitat.

2. **Educating Employees, Customers and the Community:** Describe your plans to educate employees, customers and/or community members about the importance of pollinators and healthy habitats. (add or remove lines as needed)

The honey shack is full of literature and posters explaining the pollination process. The hive is made of plexi glass ensuring visitors can see the whole process without disturbing the bees. It will be maintained by Jerry, a volunteer bee keeper, and serve as an amazing learner tool for all visitors to the village.

3. **Celebrating Pollinators:** Describe your plans to celebrate pollinators during International Pollinator Week (third week of June) or at other times. (add or remove lines as needed)

We plan to promote not only the exhibit, but the importance of bees and pollinators in our area. Living in a rural landscape gives residents of the Kawartha Lakes (a Bee City) an advantage. We are hoping we can partner with the City during this week to bring a tonne of recognition to pollinators + bring people to the village to learn more about bees.

## F) Declaration and Signatures

I/we, the undersigned, understand that the Bee City Canada Business program consists of three commitments and that our company/organization is taking actions to support these commitments:

**We acknowledge** the goal of Bee City Canada is to promote healthy, sustainable habitats and communities for pollinators;

**We acknowledge** that businesses have an opportunity to support bees and other pollinators;

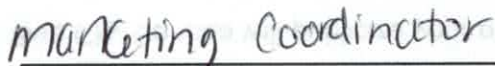

**We acknowledge** that supporting pollinators fosters environmental awareness and sustainability, and increases interactions and engagements among employees and their customers.

[Insert BUSINESS/NON-PROFIT) commits to carry out the actions outlined in this application.
