

Connecting People,  
Pollinators and Places

## Bee City Canada Application

2. **Education about Pollinators:** Describe how you plan to educate community members about the importance of pollinators.

1. The next event will be a HS workshop on June 30th which will focus on making native bee nests or insect hotels, among other features that home owners can provide in their gardens to create habitat for our pollinators. We can do something similar every year. As the Community Garden pollinator bed matures and the Wellesley Pond naturalization plantings mature, they will be ideal spots to hold future workshops

In addition, this year the community May Fish Fry featured Mark and Ben Cullen who promoted the inclusion of pollinator habitats in our private and public gardens, and the upcoming September Wellesley Fall Fair added a Pollinator Garden Contest, all with some HS involvement. Similar events could be held each year.

We have been involved with the youth program through Jr. Gardeners and the girl guides. In the future we could hold an event that teaches them about pollinator gardens and pollinators!

With support from Suzanne Culp (Past President) and Diane Peters (President) the HS members and the larger township community will be offered at least one relevant presentation at a monthly meeting which are held during January to May September and October.
